

It is likely that Bluebird, Robin and Meadowlark will have seriously begun the southern movement before this copy is mailed. May we not have reports from every member and every reader concerning these movements for publication in the next number? Won't you send your notes to the editor at once?

We greatly regret that Mr. Walter A. Johnson is no longer able to attend to the editorial duties of the well known *Osprey*, on account of ill health. It is to be hoped that the valuable publication will be continued with as able management.

It gives us pleasure to announce that our President, Reuben M. Strong, is engaged in graduate study in Harvard University this year, and that a part of his work is to be in Ornithology. There is certainly no department of science which is more worthy of study than our chosen one, and it is gratifying to know that this fact is now recognized by our best educators.
